

# Netflix Stock Data Visualization - 2017

---

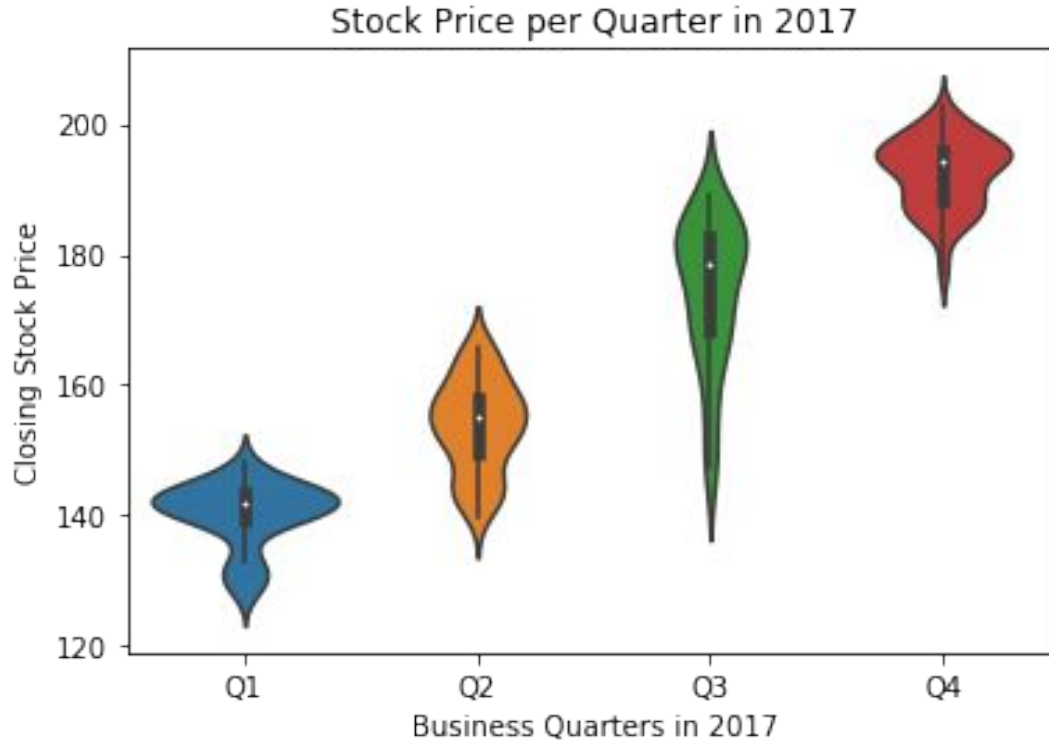

Paul Kang (Data Visualization Developer)

# Visualizations

I am a data visualization developer at Yahoo Finance in the “Netflix Stock Profile” team, and I created the following graphs to help visualize the Netflix stock data of 2017.

- The distribution of the stock prices for the past year
- Netflix's earnings and revenue in the last four quarters
- The actual vs. estimated earnings per share for the four quarters in 2017
- A comparison of the Netflix Stock price vs the Dow Jones Industrial Average price in 2017

# Distribution of Stock Prices 2017

# Netflix's Earnings and Revenue

How does Revenue per Quarter compare to Earnings per Quarter?

When the revenue per quarter is compared to the quarterly earnings, a positive trend is shown in both. However, it is visible that the earnings is only about 5% of the revenue.

# Actual vs. Estimated Earnings per Share

The actual earnings per share in cents were extremely close to estimated value, half the time being only a couple cents off, and the other half, being on point.

# Netflix vs. Dow Jones Stock Price 2017
